

ANCIENNE BELGIQUE, MAIN HALL, BRUSSELS

Technical Rider ver. 01/09/2017

This is the production and technical rider of ANCIENNE BELGIQUE, BRUSSELS. This document counts 17 pages. Please read these pages carefully as they will assure you a smooth and carefree passage at our venue.

- PART 1 : PRODUCTION INFO (PAGE 2 – 5)**
- PART 2 : SOUND INFO (PAGE 6 – 9)**
- PART 3 : LIGHT INFO (PAGE 10 – 12)**
- PART 4 : VIDEO INFO (PAGE 12)**
- PART 5 : VIDEO RECORDING (PAGE 13)**
- PART 6 : CONCERT RECORDING VENUE(PAGE 14)**
- PART 7 : PARKING INFO + DIRECTIONS (15 – 17)**

Brussels Belgium

1. PRODUCTION INFO

ADDRESS

Anspachlaan 110
1000 Brussel
Phone reception desk : 0032-2-5482400 (open weekdays from 10am till 6pm)
E-MAIL : production@abconcerts.be
WWW : <http://www.abconcerts.be>

CAPACITY

The Ancienne Belgique consists of one main hall which is adaptable to 4 different configurations.
These configurations are :

Main Hall standing – capacity 2000
AB Flex (semi seater) – capacity 1200
Main Hall seated – capacity 730
AB Box (parts of the hall are curtained off) – capacity 875

LOAD IN/OUT

Bands on tour with a **nightliner** (with or without trailer) will load in/out through **ANSPACHLAAN 110 (main entrance)** or **STEENSTRAAT (loading dock)**. **To be discussed with AB production manager during advance.**

Bands on tour with **trucks** will load in/out through the loading dock situated at **STEENSTRAAT**.
Bands on tour with a **splitter van** will load in/out through the backstage entrance situated at **LOLLEPOTSTRAAT**. Distance from loading point to stage never exceeds 25m, all flat.

PARKING

Because of a pedestrian zone around the venue, introduced since 29th of June 2015, vehicles have to follow an alternative route to reach the venue. **Please check parking info** for more info and directions to the city center of Brussels.

For nightliners: Steenstraat or Anspachlaan
For trucks: Steenstraat
For splitter vans: Lollepotstraat

We **always** need to make reservations regarding bus and truck parking at the municipality. These reservations have to be made at least 72h before arrival time. Be sure to advance the parking situation with AB production manager.

NO RESERVATION = NO PARKING

Bus and truck parking after the show is only possible till 2 AM. By that time the parking has to be vacated for arriving vehicles for next day's show. Parking on a day off is not allowed, as well as staying parked because of conflicts with drivers' rest periods.

Landlines for the vehicles can be provided. Please advance your needs with AB production manager.
We have no car parking at the venue. Cars need to be parked in a public parking nearby.

STAGE (more detailed info in sound/light section)

MAXIMUM STAGE SIZES: 16 meters wide x 13 meters deep

PA WINGS: none, we have flying facilities

HEIGHT: 1,2 meters

CLEARANCE: 12m

FLYING FACILITIES:

26 x manual flying loads: 250kg

8 x electrical flying loads: 400kg

18 motors CM Lodestar : 16 x 1000 kg + 2 x 500kg

ELECTRIC POWER:

lights 315 amps, 3 x 380 volts + neutral + earth

sound 125 amps, 3 x 380 volts + neutral + earth

rigging 63 amps, 3 x 380 volts + neutral + earth

US backline 5 x 110V 16 amps (1 at foh position)

RECORDING STUDIO:

Euphonix CS3000 104 channel analog with digital control surround mixing console.

featuring 40 ES108 analog dynamic processors and The Cube multichannel matrix.

Linked with main hall and club through XTA 8000 series active splitters.

Digidesign ProTools 11 HD Accel³ 24 bit / 192K - 48in/48out , monitoring Main Surround Genelec 1038B

(5) Nearfield Genelec 1031a (2) Yamaha NS-10M studio

Outboard Lexicon, Avalon, TC Electronic, etc...

SOUND LIMIT

Max 100 dBA Leq 60 min & 115 dBC Leq 60 min at FOH. We have 10Eazy measuring software.

Please work with us on this one, we are legally responsible. Any violation of this rule might cause us to lose our license.

MERCHANDISE RIGHT

50 € for BOX and SEATER configuration

150 € for MAIN HALL and FLEX configuration

Please let us know if you need a seller/assistant, seller charges 10% of the sales with a minimum of 75€ and a maximum of 200€, this is on top of the merch fee.

PYRO/FIREWORKS/CONFETTI

The Brussels Fire department strictly forbids the use of open flames within closed venues.

Fireworks/pyrotechnics or any other kind of fire are therefore strictly prohibited in the AB. The venue also forbids the use of any kind of confetti, snow, glitter, foam, bubble machines,....

SMOKING

In accordance with the Belgian law, Ancienne Belgique applies a strict "NO SMOKING" policy on stage and in all public areas, including e-cigarettes. Please notify all concerned persons of this.

Brussels Belgium

TIMINGS

Contractual obligations and the Belgian Labour laws reduce the availability of the venue and technicians to a daily duration of maximum 14h. This period starts no earlier than 10am and stops no later than midnight. GET IN BEFORE 10 AM IS NOT POSSIBLE.

A typical day timing would run as follows:

GET IN	please advise with production manager – no earlier than 10 am.
DOORS	7 pm
OPENING ACT	8 pm
MAIN ARTIST	9 pm
CURFEW	10.30 pm (this has to be strictly followed as it is a city regulation. Violation of this curfew will result in a fine)
AUDIENCE EVACUATION:	30min. after end show!
DRESSING ROOM CURFEW	Midnight
BUS PARKING CURFEW	02AM

BACKSTAGE DESCRIPTION:

5 dressing rooms + production office artist

5 showers & 5 toilets

Fully equipped backstage catering

The backstage catering of Ancienne Belgique (just like the other departments of our venue) tries (and tends to) to work as ecologically as possible. Therefore, almost all of the products we use in this kitchen are made from organic and sustainable agriculture. All the dry food (bread, pasta, rice, tinned veg. herbs, oil, vinegar, coffee, tea, condiments, jams, cereals,...) are organically grown. Our meat and dairy do come from a small cooperative of organic farmers. All of our vegetables (except the ones we do have to order last minute or the ones the bands explicitly demand in their riders) are seasonal and organically grown. All our wines and fruit juices are made from organically grown fruits. Most of the fish and sea food we do use (same exceptions as for the vegetables) are seasonal and certified from sustainable fishing. All of our cleaning products are eco-friendly. And finally even our coffee and solo “plastic” cups are made from organically grown material, 100% compostable and bio-degradable

WIFI/INTERNET:

Hard wired internet available in artist production office.

Free WIFI network available in dressing room area.

Network: **AB-Backstage**

Password: **ABbackstage**

AFTERSHOW/VIP ACCESS

The Ancienne Belgique does not allow “afterpartys” to be held in the backstage area.

“All Access” is only allowed to the band and their entourage.

All “after show” access to the backstage area is on a strictly individual basis and needs to be approved by the AB production manager.

Organized “afterpartys”, “meet and greets”, etc. can be held in a specially designated area with no direct access to the backstage area, this to guarantee the safety and wellbeing of all persons and material concerned.

SECURITY

In accordance with the Belgian law (the law of 10 April 1990 concerning security firms, protection firms and internal security services) only the interior security service of the Ancienne Belgique is allowed to function in the building. No other security services, body-guards or artist personal security have a legal right to act within the confines of the Ancienne Belgique. This includes all forms of stage security and all contact with the audience.

WIRELESS FREQUENCIES for microphones, in-ears, guitars

AB has venue permits for 14 mic/gtr and 14 IEM frequencies, max 50 mWatt. Please find the frequencies you can use on the next page.

Any inspection by authorities may result in a fine of 50 euro to 50.000 euro, a seizure of the goods and/or a summons at a magistrates court.

WIRELESS FREQUENCIES for walkies

Permits can be asked via sound@abconcerts.be at the latest 3 weeks before showday.
Basic amount is 150 euro + 15 euro per walkie (up to 5 Watt).

All walkies need a permit, please specify:

- Brand + type of the walkies
- How many walkies in total
- Output in Watt
- Analog or Digital
- Frequencylist of all walkie channels

Late requests:

Request<1 week before showday: total amount x 2

Request<3 days before showday: total amount x 5

These rates are determined by BIPT, the Belgian Institute for Post and Telecomservices (www.bipt.be).

Any inspection by authorities may result in a fine of 50 euro to 50.000 euro, a seizure of the goods and/or a summons at a magistrates court.

Brussels Belgium

5. VIDEO RECORDING

The Ancienne Belgique now features four high quality remote controlled camera's in both the Main Hall and the Club. These camera's are used for streaming purposes through the venue's dedicated HD streaming server, but their image can also be captured in HD quality, through storage of each camerafeed on hard drives.

These feeds then can be remixed afterwards for a variety of purposes with video content : dvd-video, CD-extra bonus features, Quicktime movies, etc ..

For a look at past video recordings, [click here](#). Please note that the images you find there are not the full quality ones, but compressed for streaming. Idem for the audio, the source of which can be either the front of house or studio livemix.

Tape property

As with a normal studio booking, the Ancienne Belgique does not retain rights or copies of the images, they are yours after the invoice has been taken care of.

If you wish, the Ancienne Belgique can (at no extra cost) put an on demand non downloadable version of the concert on their server.

Integration with our multitrack recording studio

Should you plan postproduction on the video you might consider recording the audio of the concert throughour in house recording studio in multitrack as well for excellent sound.

At an unbeatable price

As this video recording is performed by one video operator, we are able to offer you this facility at a very competitive rate.

Video equipment:

The concerts in the club and hall are recorded with 4 separate cameras.

Those are not static webcams but dynamic registrations.

- 4 x SONY BRC H900 with HD/SDI output
- 1 x Video Station Sony Anycast with 4 x HD/SDI inputs
- 4 x Black Magic HyperDeck Studio
- 1 x Black Magic Hyperdeck Studio Pro

Contact

For more information contact the studio technician through mail studio@abconcerts.be or telephone +32 (0)2 548 24 15.

6. CONCERT RECORDING VENUE

The Ancienne Belgique features an in house recording studio linked to both stages - Club and Main Hall. Over the years we have recorded and mixed more than 3.000 shows, either for radio or TV broadcast, live streaming, CD's and DVD's

The studio features a vintage Euphonix CS3000 analog console with pristine clear preamps, and analog dynamics per channel. It also features a 12 channel Cube matrix for surround mixing.

The link with both stages is done through active XTA 8000 splitters so that the studio operation does not interfere with normal concert operations.

As the studio is totally integrated in the venue it allows recordings to be setup very easily and performed by one engineer – which in turn allows us to offer these facilities at a very competitive rate.

Studio phone: +32-2-5482415

7. PARKING INFO + DIRECTIONS

The city centre of Brussels recently changed into a pedestrian area. Nevertheless, we will still be able to park vehicles in the centre near the venue. For all arrivals we will forward the necessary permissions to enter the pedestrian zone and all parking permits for the vehicles on tour.

We will send you :

- Permission to enter the pedestrian zone
- Permission to park nearby Ancienne Belgique

We only received authorisation to park 3 vehicles nearby the venue. In case your production is touring with more vehicles, we will offer an alternative parking place. This will be communicated during the preproduction of the show.

The AB production manager will advise where to park, depending on the situation and number of vehicles. This can vary from day to day. The decisions made by AB production will be in consultation with the city of Brussels.

Very important for all drivers :

Due to the changes of the city centre into a pedestrian zone, the way to arrive at the venue has changed. All information for/on the GPS is already adapted. Please make sure your GPS device is updated or use Google Maps.

The pedestrian area is open between 4 AM and 11 AM without permission. If you arrive later you'll need all documents sent by the AB production team to enter the pedestrian zone.

ITINERARY TO FOLLOW WHEN USING BUS OR TRUCKS

TO ARRIVE AT ANCIENNE BELGIQUE

Take the inner ring road R20 – DON'T GO INTO THE TUNNELS !

Exit : Stalingradlaan
Continue : Into Zuidstraat

POWER CONNECTION

1.
loading dock

2.
Connect
16A or 32A

ARRIVAL ROUTE TO FOLLOW

Brussels Belgium

LOW EMISSION ZONE BRUSSELS **OFFICIALLY ESTABLISHED AS FROM 01/01/2018**

The LEZ applies every day of the week, 24/7

Which vehicles are affected?

The regulation applies to the following vehicles; registered in Belgium or abroad (except exemptions):

- Passenger cars
- Vans \leq 3.5 ton (vehicle category N1 on the registration documents)
- Buses and coaches

In 2018, the only vehicles which will not be allowed to drive in Brussels are EURO 1-standard diesel vehicles or vehicles without a EURO standard (pre-Euro standards).

Vehicles non-compliant to the LEZ access criteria may enter the Brussels-Capital Region with a paid-for day pass, authorizing a maximum of eight days' access to the region (with reservation of the approval of the texts by the Brussels' legislator, the day pass amounts to 35 € per day). Once the eight days have elapsed, the vehicle must meet the access rules .

The pass will be available from the summer of 2018.

Always double check the official website for updates on regulations and exemptions:

<http://lez.brussels/en/content/my-vehicle>

The access criteria will change over time so gradually more vehicles will be affected by the LEZ.

PARKING SITUATION (TBC BY AB PRODUCTION MANAGERS)
